English- Effective sentences

1. Daily 10 minutes: Watch one of the handwriting videos [here](#) to practise forming the '**slider family**' letters. You will need some lined paper and a pencil for this.
2. We are starting a 2 week writing unit where we will use a youtube video to help write a narrative about why the pyramids were made. This is **fictional!** No one really knows why the pyramid shape was chosen.

Each day you will need to watch a particular part of the video. I will give you the times you need to watch between and you can write **3 sentences for each daily part**. It is ok if you want to write more, but writing 3 is fine.

I will introduce the writing to you each day and together we will think about possible words and ideas so it would be great if you could watch the correct part of the video **before** the morning zoom session.

If you would like to, you can bring some paper and a pencil to each session or use the writing page I send out and upload to the website.

See how many of these activities you can complete and colour them in once you have done them.

Can you get 4 in a row in 2 days

Or for more of a challenge,

Can you get a full house in a week?

You might even decide to play this with someone else in your family and see who finishes first!
